COMMENTS FROM OUR STUDENTS

"My dream was to become a tourist guide. I love meeting people and would love to show tourists the beautiful sites of Sri Lanka. I knew I could not speak with them as my English was weak. So I joined the Rainbow Institute and followed a one year Basic Diploma in English. The teachers were very kind and taught me well. The Rainbow Institute is my teacher, friend and guide. They helped me to realize my dream. I will always be grateful to Rainbow."

Chathura Nuwan, (19 years)
General Diploma in English

"Now that the war is over and the Government and Armed Forces are focusing on development, I realized that military English is not sufficient for me to advance in my career and function effectively in society. By following the Business English course I learned to function effectively in the business environment, using tools such as memos, e mails, business letters, advertisements etc. This has helped me a great deal in communicating with foreign associates, as well as business leaders."

Major Buddhika Athukorale,
Sri Lanka Army,
Cambridge Business Communication

"I enjoy my sessions at Rainbow so much. I developed a lot of confidence and skill in public speaking after I joined. My sister and I got the courage to enter the impromptu speech competition in our school. We were overjoyed when both of us were adjudged winners of the first and second places."

Keshiya Johnson (12 years)
Colombo South International School

"This programme is an amazing experience. I saw a great development in all the participants by the end of the programme."
